

Introduction to Research in Zoology

Seminar list 2021/2022

The seminars will be given in Hebrew

lecture #	Date	Lecturer	Title
1	10/10/2021	Dorothee Huchon	Presentation of the course, Insight into the genome of a parasite
2	17/10/2021	Roi Holzman	Elastic energy storage powers ultra-fast feeding movements in seahorses
3	24/10/2021	Shai Meiri	Mapping reptile biodiversity: science & conservation in Israel and worldwide
4	31/10/2021	Yossi Yovel	To be announced
5	07/11/2021	Inon Sharf	To be announced
6	14/11/2021	Orr Spiegel	High throughput systems in movement ecology - a challenge for data science
7	21/11/2021	Yoav Ram	Evolution of social learning
8	28/11/2021	Frida Ben-Ami	To be announced
-	05/12/2021		HOLIDAY
9	12/12/2021	Gal Ribak	Insect flight biomechanics: mechanisms for long-distance flight
10	19/12/2021	Eran Levin	Nutritional ecology
11	26/12/2021	Noa Shenkar	Making lemonade underwater
12	02/01/2022	Amir Ayali	Collective motion - the locust model
13	09/01/2022	Omri Bronstein	Ecology and evolution in the genomic era
